LAMBDA BOARD®

WATERPROOFING APPLICATIONS

The exceptional heat resistance and specially designed facings make LAMBDA BOARD® the only insulation material that can directly receive torch applied membranes.

LAMBDA BOARD® is the perfect insulation for concrete decks and inverted steel sheeting. Its high compressive strength, thermoset construction and specially designed facings work seamlessly with all waterproofing systems.
WATERPROOFING APPLICATIONS

**BENEFITS**

- Waterproofing membrane can be applied directly to LAMBDABOARD®
- Reduced labour fatigue – no board required
- Environmentally friendly
- Superior insulation properties
- Excellent compressive strength
- Zero shrinkage

**IDEAL FOR**

- Inverted roofs
- Under screed with waterproofing overlay
- On top of waterproofing with ballast overlay
- Directly under waterproofing membrane

---

**LONG TERM THERMAL RESISTANCE**

- **75%**

**LABOUR SAVING**

- **-30°C to 120°C**

**TEMPERATURE RANGE**

- **HIGH COMPRRESSIVE STRENGTH**

- **>170%**

**ENERGY SAVING**

- With a rational design

**LOW MAINTENANCE**

- **Thickness:** 25 mm to 100 mm
- **Width:** 1220 mm
- **Length:** Cut to size
- **Minimum:** 1350 mm

**MOISTURE RESISTANCE**

- On cavity wall and under screed installations

---
